Recommendation Letter

Mogotel Hotel Group AS hereby confirms that KSK IT has been our trusted technical partner in the implementation and launch of multiple international hospitality infrastructure projects carried out in cooperation with our organization since 2021.

Between 2021 and the present, KSK IT successfully executed full-cycle deployment of network and IT infrastructure across hotel properties in Poland, Germany, Hungary, Slovenia and Sweden. All projects were delivered on time, with consistently high quality of execution and strong operational discipline.

The following hotel projects were launched by KSK IT:

1. **Wyndham Wroclaw Old Town** — Wroclaw, Poland
2. **Wyndham Garden Munich Messe** — Munich, Germany
3. **Ramada Essen** — Essen, Germany
4. **Ibis Styles Ljubljana** — Ljubljana, Slovenia
5. **IHG voco Stockholm Kista** — Stockholm, Sweden
6. **Mövenpick Hotel Budapest Centre** — Budapest, Hungary

Throughout these projects, KSK IT demonstrated strong capability in:

1. deployment and configuration of IT and network infrastructure,
2. coordination and supervision of subcontractors,
3. technical oversight, documentation and administration,
4. cross-border project management and communication.

We also note the effective cooperation between KSK IT and Hoist Group's Polish partner **Merizon**, which ensured smooth execution of works in Poland and contributed to the overall success of the regional rollout.

At present, all listed hotel properties are serviced and maintained by **KSK IT in collaboration with local specialists**, ensuring stable operation of the deployed systems and continuous support for hotel staff and guests.

Based on our experience, Mogotel Hotel Group AS confidently recommends KSK IT as a reliable and competent partner for future cooperation with Hoist Group.

Mogotel Hotel Group AS Riga, Latvia 2026
